

# ALCOHOL & PUBLIC HEALTH

## WHO/EU Evidence into Action webinar series

WHO/Europe is launching a series of webinars for everyone with an interest in alcohol from a public health perspective. The series is primarily aimed at graduate and postgraduate students, early career researchers, and young professionals in various fields like public health, social sciences, medicine, economics, etc.

The webinars are part of the WHO-EU Evidence into Action Alcohol Project (EVID-ACTION), funded by the European Commission. The project's objective is to utilize scientific evidence to promote and facilitate the implementation of effective alcohol policies in the EU, Iceland, Norway, and Ukraine.
