Integrated surveillance of COVID-19 in Italy

(Ordinanza n. 640 del 27/02/2020)

17 March 2020 UPDATE

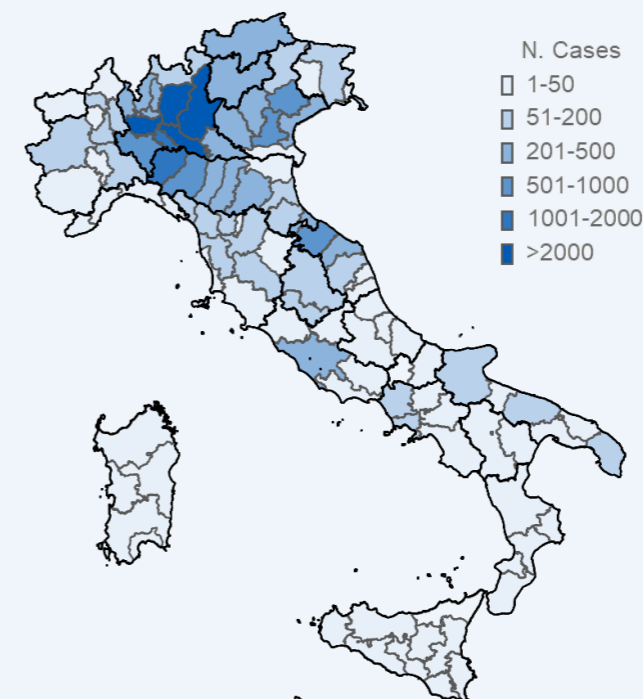

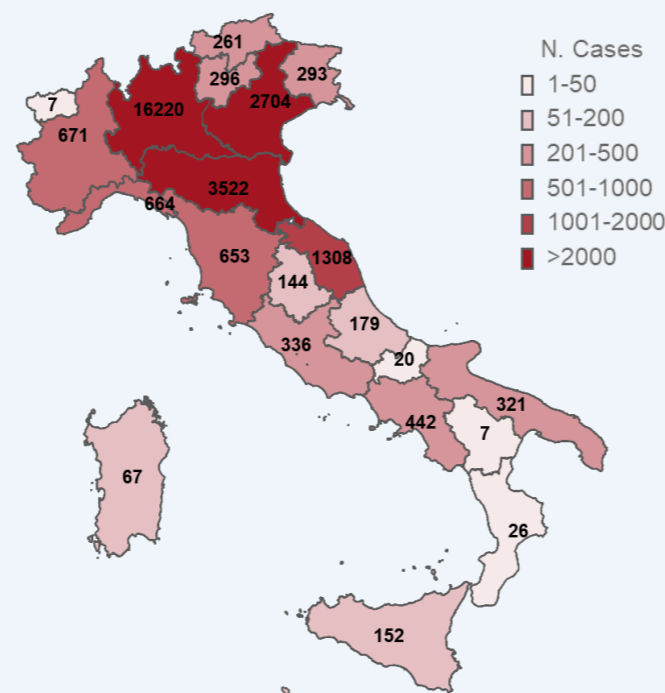

98% of the clinical samples processed were confirmed by the National Reference Laboratory at the Istituto Superiore di Sanità

Data available only for 11,397 cases

Total number of COVID-19 cases diagnosed by the Italian Regional Reference Laboratories

*The case definition considers as a confirmed case any person with laboratory confirmation of virus causing COVID-19 infection, irrespective of clinical signs and symptoms <https://www.ecdc.europa.eu/en/case-definition-and-european-surveillance-human-infection-novel-coronavirus-2019-ncov>

*ISS collects data on cases that tested positive for SARS-COV-2 infection diagnosed by all Italian Regions/Autonomous Provinces. Data could differ from aggregated data from the Italian Ministry of Health and the Italian Civil Protection. [§]The term "health-care worker" is based on the occupation and not on the place of exposure. [§]Case Fatality Rate
