Integrated surveillance of COVID-19 in Italy

(Ordinanza n. 640 del 27/02/2020)

18 March 2020 UPDATE

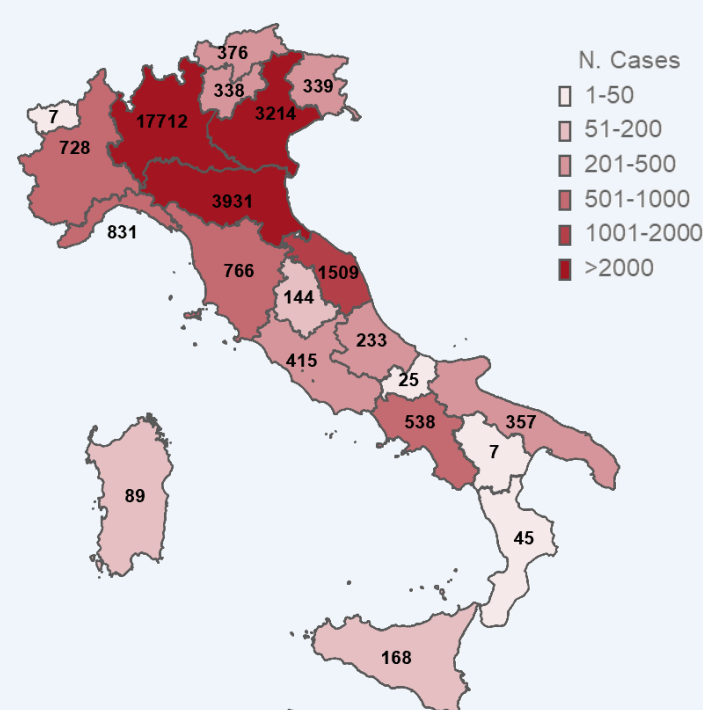

98% of the clinical samples processed were confirmed by the National Reference Laboratory at the Istituto Superiore di Sanità

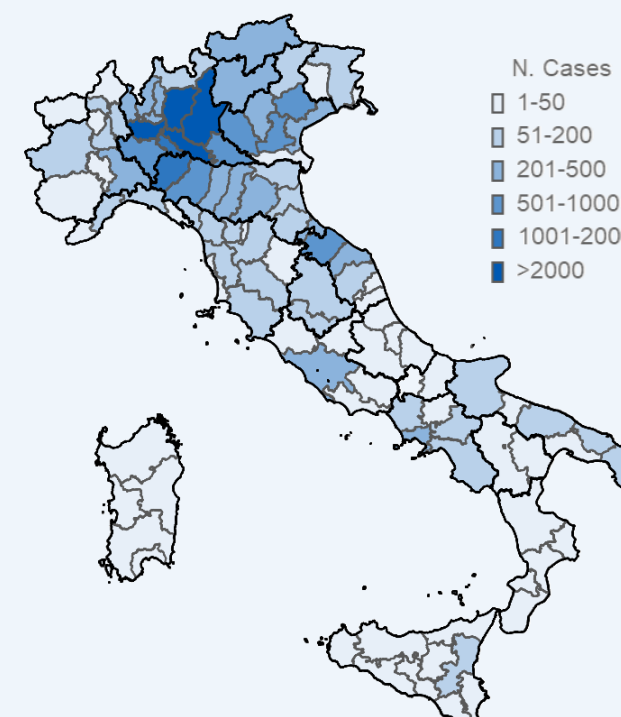

Data available only for 12,171 cases

Total number of COVID-19 cases diagnosed by the Italian Regional Reference Laboratories

By Region/Autonomous Province of diagnosis

(data available only for 31,772)

By province of residence

(data available only for 29,859)

*The case definition considers as a confirmed case any person with laboratory confirmation of virus causing COVID-19 infection, irrespective of clinical signs and symptoms <https://www.ecdc.europa.eu/en/case-definition-and-european-surveillance-human-infection-novel-coronavirus-2019-ncov>

*ISS collects data on cases that tested positive for SARS-COV-2 infection diagnosed by all Italian Regions/Autonomous Provinces. Data could differ from aggregated data from the Italian Ministry of Health and the Italian Civil Protection. ^{\$}The term "health-care worker" is based on the occupation and not on the place of exposure.
