Chi siamo

LA RETE

**YOU AREN'T AFRAID TO HOLD ME CLOSE.
YOU ARE MY FATHER.**

The older generation might tell you, "Your friends might not get it - even some of those who have children of their own. But you're different. You're not afraid to share your affection for your family in public or to share the parenting responsibilities."

It is a world in which too many children feel that their fathers are distant, uninvolved or uninterested. They often stay at a distance, even if that also means taking your children to school or to other places. And you're different. You're not afraid to share your affection for your family in public or to share the parenting responsibilities.

**YOU ARE ALWAYS THERE TO GUIDE US.
YOU ARE MY FATHER.**

Great fathers aren't born, they're made. The world is full of fathers who are great fathers. But their number will grow more as time goes on. It's not just about being there for your children, it's about being there to guide them. And you're different. You're not afraid to share your affection for your family in public or to share the parenting responsibilities.

It is a world in which too many children feel that their fathers are distant, uninvolved or uninterested. They often stay at a distance, even if that also means taking your children to school or to other places. And you're different. You're not afraid to share your affection for your family in public or to share the parenting responsibilities.

**YOU TELL ME WONDERFUL STORIES.
YOU ARE MY FATHER.**

You'd be surprised at what you learn from your children. Teaching your children and providing an education that only opens up a whole new world for them. But the chances are good that your children will teach you something new every day too.

But education doesn't end when the school day ends - when you read to your children at home and help them with their school work, you will set the stage for a lifetime of learning.

**YOU SEE EQUALITY IN MY FUTURE.
YOU ARE MY FATHER.**

A more hopeful and more equal future is possible. The more your children know, the further they go in school, the bigger their future becomes. And that future - the girls and the boys - is yours to shape.

When you teach your children that all people - boys or girls, of different backgrounds, gay or straight - should be treated equally and respectfully, you're also teaching them that they deserve a future full of opportunity and equality too. That's a powerful lesson that they'll remember forever.

**YOU HELP ME TAKE MY MEDICINE.
YOU ARE MY FATHER.**

There are men who have answered a challenge in a world in which too many children feel that their fathers are distant, uninvolved or uninterested. They often stay at a distance, even if that also means taking your children to school or to other places. And you're different. You're not afraid to share your affection for your family in public or to share the parenting responsibilities.

**YOU DON'T WANT TO BE ANYWHERE ELSE.
YOU ARE MY FATHER.**

There's nothing like the sound of your children's laughter that they choose to play and create.

parent.

E' un progetto europeo che intende promuovere la parità di genere e contrastare la violenza verso le donne, promuovendo fin dalla gravidanza l'impegno dei padri nelle cure familiari e domestiche

Paesi: Portogallo, Italia, Austria, Lituania

Le azioni

- **Formazione/aggiornamento del personale socio-sanitario ed educativo (0-3)** che entra in relazione con i padri durante gravidanza, nascita e primi quattro anni su come lavorare meglio con gli uomini e promuovere una paternità attiva e non violenta;
- **Gruppi di condivisione/sensibilizzazione di padri** come spazi dove elaborare emozioni, pensieri e sentimenti legati al ruolo genitoriale, incoraggiando un atteggiamento di compartecipazione e rispetto.
- **Azione di comunicazione** per promuovere la parità di genere e il coinvolgimento dei padri nelle cure.

. **parent** fa leva sulle evidenze scientifiche – ormai estese - secondo cui *il coinvolgimento precoce, pratico ed emotivo, del padre nella genitorialità:*

- migliora la salute psico-fisica del bambino e della madre;
- facilita l'allattamento;
- contribuisce al raggiungimento della parità fra i sessi.
- diminuisce le probabilità di violenza domestica;
- *crea fin dall'inizio un forte legame affettivo padre-figlio, che a sua volta ha esiti positivi sullo sviluppo cognitivo, sociale e affettivo del bambino/a.....*
- *... e all'inizio, la creazione del legame (il bonding) si realizza con il contatto fisico, la vicinanza*

**Con il distanziamento
(e non solo del padre)
la pandemia ha inciso
negativamente sulla
qualità delle relazioni
genitoriali precoci...**

**Eppure, in molte
situazioni si è cercato
di salvaguardare le
relazioni.....**

Cosa abbiamo imparato?

Cosa è replicabile?
