Behavioral Risk Factor Surveillance System (BRFSS)

**Behavioral Surveillance Branch,
National Center for Chronic Disease Prevention and Health Promotion,**

SAFER • HEALTHIER • PEOPLE

Overview

- **Background**
- **Current system**
- **Questionnaire**
- **Process**
- **Contributions and uses**
- **Recent developments**
- **Future plans**

BRFSS History

- **State-based system in collaboration with CDC**
- **Established in 1984 with 15 states**
- **Began with six individual-level risk factors associated with leading causes of premature mortality among adults**
 - **Cigarette smoking; Alcohol use; Physical inactivity; Diet; Hypertension; Safety belt use**

Current BRFSS

- **Conducted by all 50 states, DC, Puerto Rico, U.S. Virgin Islands, and Guam**
- **Largest continuously conducted telephone health survey in the world**
- **264,684 interviews in 2003**
- **Nearly 3 million interviews overall**
- **Primary focus on adult behaviors linked with leading causes of death**

Questionnaire Design

- **Core**
- **Rotating Core**
- **Emerging Core**
- **Optional Modules**
- **State-Added Questions**
- **BRFSS Conference – Proposals & Voting**

Core – Demographics

- Age
- Gender
- Race & racial makeup
- Marital status
- Education level
- Employment status
- Income
- County of residence
- Zip code
- Number of children in household
- Height & weight
- Pregnancy status

Core

- **Health Status**
- **Health Care Access**
- **Healthy Days (Health-related quality of life)**
- **Emotional Support and Life Satisfaction**
- **Disability**
- **Tobacco Use**
- **Alcohol consumption**
- **Exercise**
- **Immunization**
- **HIV/AIDS**
- **Diabetes**
- **Asthma**
- **Cardiovascular Disease**

Rotating Core

- **Fruits & vegetables**
- **Hypertension awareness**
- **Cholesterol awareness**
- **Arthritis burden**
- **Physical activity**
- **Women's health**
- **Prostate screening**
- **Colorectal cancer screening**
- **Oral health**
- **Injury**

Optional Modules

- **Diabetes**
- **Oral health**
- **Visual impairment**
- **Healthy days: symptoms**
- **Cardiovascular health**
- **Controlling high blood pressure**
- **Heart attack & stroke**
- **Influenza**
- **Adult asthma history**
- **Random child selection**
- **Childhood asthma prevalence**
- **Child immunization**
- **Women's health**
- **Osteoporosis**
- **Arthritis Management**
- **Weight Control**
- **Indoor Air Quality**
- **Home Environment**
- **Smoking Cessation**
- **Secondhand Smoke Policy**
- **Veteran's Status**
- **Reactions to Race**
- **Sexual Violence**
- **Intimate Partner Violence**

Versatility: State-Added Questions

- **Earthquake emergency preparedness**
- **West Nile Virus**
- **Bioterrorism**
- **Environmental health**
- **Suicide**
- **Osteoporosis**
- **Food handling**

Responding to September 11th

- **Connecticut, New Jersey, and New York added questions on effects of terrorist attacks on World Trade Center**
- **Findings demonstrated need for public health programs to address both physical and psychological aftermath**

Standardized

- All states use core questionnaire
- Standardized methodology for collection and analysis
- Allows for state-to-state comparisons
- Now allows for local-to-local comparisons (SMART BRFSS)

Process

- **States receive monthly telephone sample from CDC**
- **Household sample design**
- **Random digit dialing**
- **Random selection of adult 18+ years**
- **Conduct interviews, data entered into CATI system**
- **States edit data**

Process: New Features

- **Submit data on upload/download Internet site**
- **Instant data quality reports**
- **CDC can track data submission**
- **Data processed in 24 hours and back to the state**
- **States can track any changes**

Rapid Turnaround

- **States receive mid-year data reports, now quarterly**
- **Receive preliminary reports within a week of final year data**
- **In 2004, 43 states had final reports by end of January, all by March**
- **Data available to public on Web site by six months after end of data collection**

Who Uses BRFSS Data?

- **State and local government**
 - **CDC programs**
 - **Government agencies**
 - **Universities – faculty & students**
 - **Research organizations**
 - **Health professionals in nonprofits**
 - **Insurance companies**
 - **Managed care organizations**
 - **Businesses**
 - **Public**
- Even elementary and middle school students!**

Contributions to Public Health

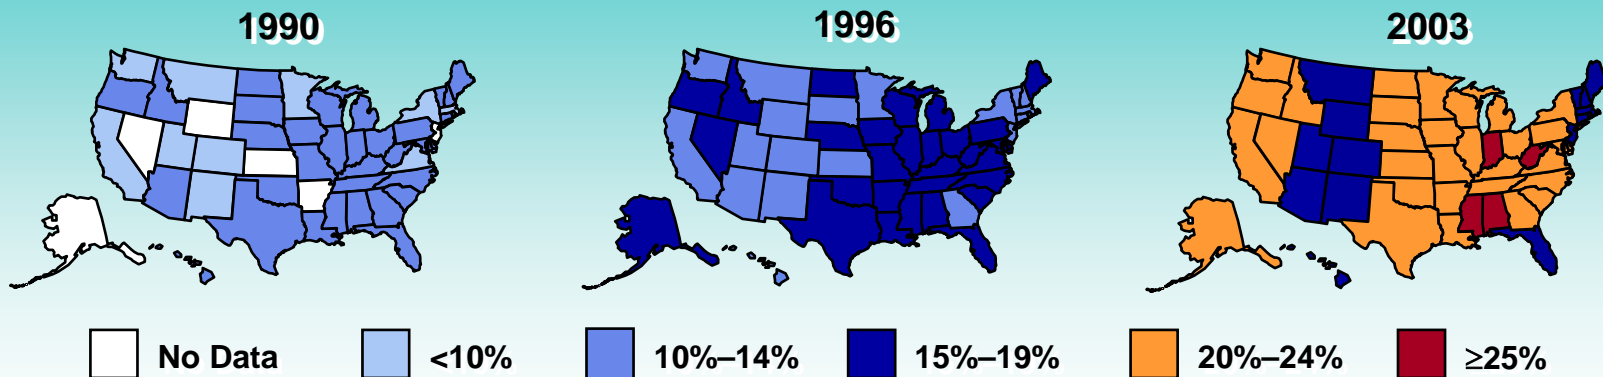

- **Key component in major public health issues for the last two decades**

- **National**
- **CDC programs**
- **State**
- **Local**

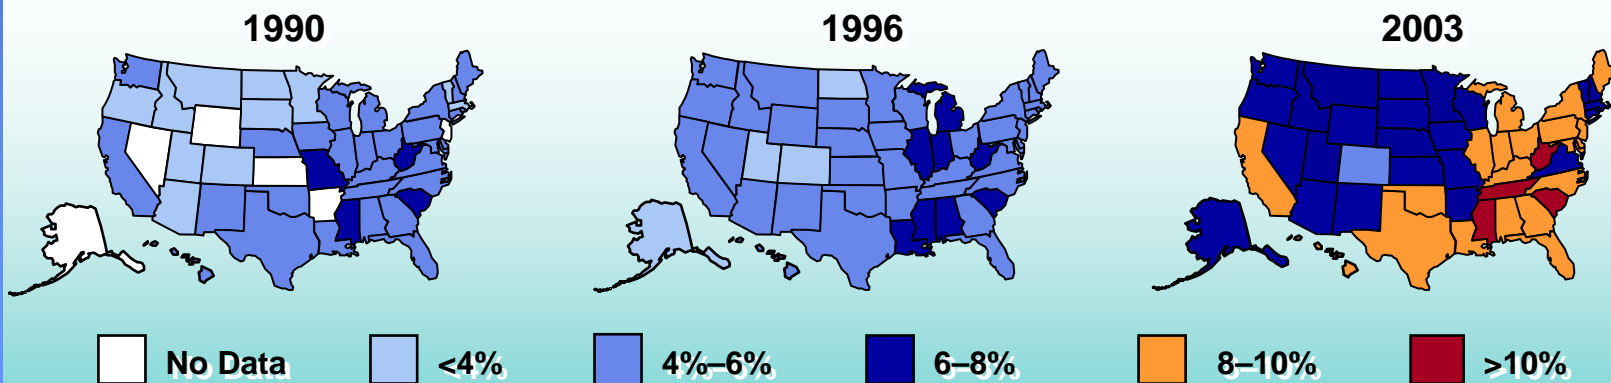

Prevalence of Obesity* Among U.S. Adults

(*BMI ≥ 30 , or about 30 lbs overweight for 5'4" person)

Prevalence of Diabetes* Among U.S. Adults

(*Includes gestational diabetes)

Source: Behavioral Risk Factor Surveillance System, CDC.

SAFER • HEALTHIER • PEOPLE

Flu Vaccine Response

- Vaccine shortage announced October 5
- Worked with state coordinators and National Immunization Program
- In November, all states incorporated new questions
- Data submitted weekly
- By November 6, 56% of adults aged 65+ who received vaccine last year had been vaccinated this season

Folic Acid Campaign

- U.S. Public Health Service recommendation
 - All women of childbearing age take 400 mcg folic acid
- To plan public health campaign, questions added to BRFSS in 1997
- Result

Amount Per Serving	% Daily Value
Niacin 20 mg	100%
Vitamin B6 2 mg	100%
Folic Acid 400 mcg	100%
Vitamin B12 6 mcg	100%
Pantothenic Acid 10 mg	100%

- Most women didn't know folic acid prevented neural tube birth defects
- Two groups emerged: Contemplators & Non-contemplators

- Campaign continues with two-pronged approach
- Steady increase in knowledge shown

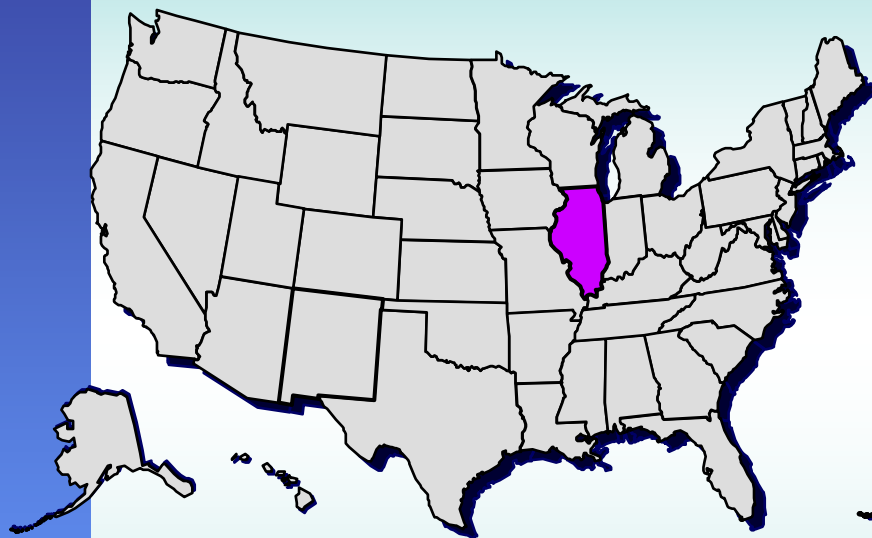

State Action

- **Identify emerging health problems**
- **Program development**
- **Policy development**
- **Tracking health risk trends**
- **Program evaluation**

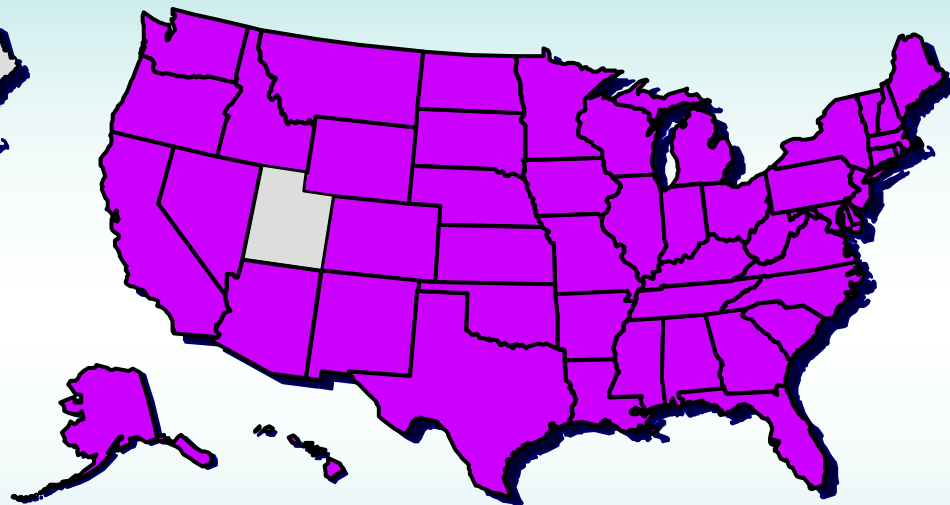

Mandatory Insurance Coverage for Screening Mammography

1981

2002

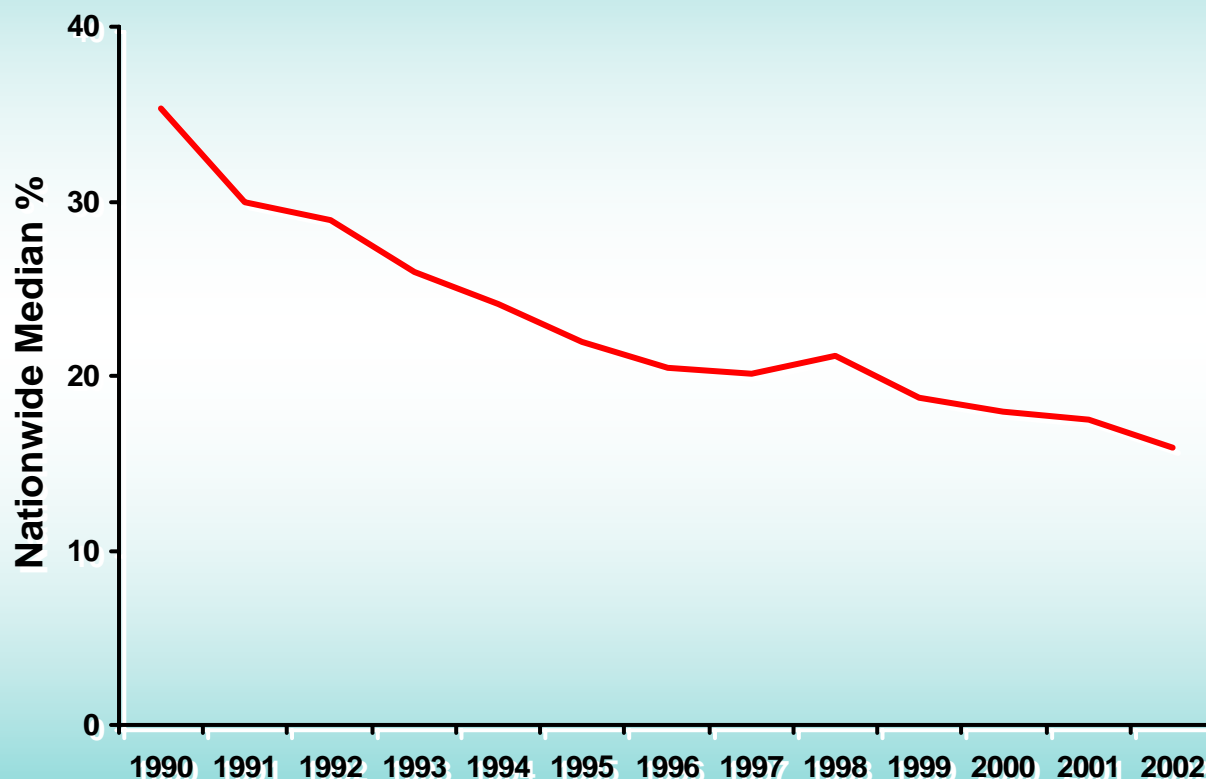

No mandatory insurance coverage for screening mammography.

Mandatory insurance coverage for screening mammography.

Prevalence of Women Who Never Had a Mammogram, Ages 40 and Older BRFSS 1990–2002

Source: Behavioral Risk Factor Surveillance System, CDC.

SAFER • HEALTHIER • PEOPLE

Local BRFSS Data Impact

- **Williamson County, Texas — 56% no physical activity, 34% overweight, and 21% obese**
- **Local public health officials took notice — and ACTION**
- **Created bicycle maps with routes, roadway ratings, safety tips**
- **Developed Web-based application for customized maps: wcbikemap.org**

SMART BRFSS

- **“Selected Metropolitan/Micropolitan Area Risk Trends from the BRFSS”**
- **How? → Increased sample size and county of residence**
 - **Metropolitan/Micropolitan Statistical Areas (MMSAs)**
 - **Counties**

SMART BRFSS

- **Standardized weighting methodology**
- **MMSA – 500 or more interviews**
- **Counties – able to be weighted**
- **98 MMSAs & 146 counties for 2002**

SMART: Selected Metropolitan/Micropolitan Area Risk Trends

SMART BRFSS

The Selected Metropolitan/Micropolitan Area Risk Trends (SMART) project uses the Behavioral Risk Factor Surveillance System (BRFSS) to analyze the data of selected metropolitan and micropolitan statistical areas (MMSAs) with 500 or more respondents. BRFSS data can be used to identify emerging health problems, establish and track health objectives, and develop and evaluate public health policies and programs.

2002 SURVEY DATA

Survey Data Info	Data Files	SAS Resources
A word about file formats: The SMART BRFSS Survey Data are available in several different file formats. Each type available from this page is described below.		
	Rich Text Format File (RTF). This format contains plain text and allows for basic formatting. Use a word processor to view and edit these files.	
	Zip Archive File (ZIP). This format contains one or more files within it and is compressed to minimize the file's size. Use any zip utility to unzip these archives.	
	Self-Extracting Archive File (EXE). The executable files available on this page automatically unzip an archive file without needing to invoke a Zip file utility.	
	SAS Instruction File (SAS). This format contains plain text that can be edited with a text editor. The instructions are intended for statistical analysis software developed by SAS Institute, Inc.

SMART BRFSS

(Selected Metropolitan/Micropolitan Area* Risk Trends from the Behavioral Risk Factor Surveillance System)

Alabama

Survey Definitions

No Health Insurance - Percentage of adults reporting no health care coverage in the past year

Current Smoking - Percentage of adults reporting having smoked at least 100 cigarettes in their lifetime and currently smoke

Obesity - Percentage of adults reporting Body Mass Index greater than or equal to 30.0

Diabetes - Percentage of adults told by doctor they have diabetes

Colorectal Cancer Screening - Percentage of adults 50 years or older reporting having ever had a sigmoidoscopy or colonoscopy exam

Binge Drinking - Percentage of adults reporting having five or more drinks on an occasion, one or more times in the past month

Health Status - Percentage of adults reporting general health as fair or poor

* Metropolitan statistical area - Group of counties that contain at least one urbanized area of 50,000 or more inhabitants. Micropolitan statistical area - Group of counties that contain at least one urban cluster of at least 10,000 but less than 50,000 inhabitants. Metropolitan Division - Smaller group of counties within a metropolitan statistical area which contains 2.5 million or more inhabitants. (Source: U.S. Office of Management and Budget)
