The EpiSouth Network

Starting as an EU project, EpiSouth struggled to develop its Mediterranean vocation. From an initial involvement of 5 countries (Italy, Spain, France, Greece, and Bulgaria), it includes now partners from collaborating institutions and 26 countries from Southern Europe, Balkans, Middle East, and Northern Africa.

The Project duration has been extended to June 2010

Focus Topic

The European Commission has made available a technical guidance on generic preparedness planning for public health emergencies. The strategy developed in this document should lead to the establishment and improvement of the interoperability of national plans, mainly by creating coordination mechanisms and analysis and communication tools that enhance cooperation between key Member States and Commission players
